

## Capacity Building Training Programme

### Module 4 | Assessment Exercise (I)

## Module Assessment (Quiz)

Assessment Duration: 20 minutes

Instructions: Read each statement carefully and mark the correct answer.

**Question 1: Quality is a major pillar of evaluating the performance of a project and is taken into account for scheduling a project.**

- a. True
- b. False

**Question 2: A milestone is a significant stage or event in the development of something. Usually in PM, milestones are characterized best as a phase transition or a completion of a deliverable.**

- a. True
- b. False

**Question 3: A project manager usually follows a general guideline regarding effort distribution: the 30-40-30 rule.**

- a. True
- b. False

**Question 4: Project managers maintain control of the project by following the Gantt Chart and monitoring the project as best as possible.**

- a. True
- b. False

**Question 5: One of the benefits of risk management to a project is to produce better business outcomes through more informed decision making.**

- a. True
- b. False

**Question 6: In order to estimate an activity, a project manager needs to have in mind the work breakdown structure of the activity with different subtasks.**

- a. True
- b. False

**Question 7: There are different approaches when estimating time, effort, and cost using the WBS:**

- Based on expert advice
- Based on historical information
- Based on similarity to other tasks
- Based on the Function Point Analysis (FPA) method (IT projects)
- Based on other tools or commonly acceptable methods
- Based on resource cost information (i.e. price lists, outsourcing contracts)

- a. True
- b. False

**Question 8: The outcome of the Work Breakdown Structure is used as the input for the Effort Estimation thought process. All the work items are estimated for the required effort to perform this work.**

- a. True
- b. False

**Question 9: Everybody can be an estimator. No experience is needed to produce estimates, and no pressure is required.**

- a. True
- b. False

**Question 10: Does a scheduler need to have good time management skills?**

- a. True
- b. False
